

Dear Bismarck Hockey Boosters,

In preparation for the upcoming hockey season, Bismarck Hockey will once again offer a preseason hockey clinic. We are excited to announce that the Bismarck High School and Century High School Hockey coaches and their staffs will be leading our clinic. Mike Peluso, BHS Head Coach, and assistant BHS coach, Todd Rohloff, both of whom are former NHL players; and Troy Olson, CHS Head Coach and former college hockey player, will be leading the clinic. Bismarck Hockey is fortunate to have such incredible coaching and playing experience leading us into the 2009-2010 hockey season.

This year the clinic will be a two week session for \$125.00. Skills that will be focused on are power skating, power and acceleration, quickness and speed, as well as stick handling, creative moves, passing, shooting, and puck control. The participants will also be instructed on team play. A checking clinic for the Pee Wee level players will be provided with both on and off ice sessions.

The sessions will be divided as follows:

Mites and 8U girls;
Squirts and 10U girls;
Pee Wees,
12U, 14U and 16U girls;
Bantams.

The dates for the clinic will be September 26 through October 9. For a detailed schedule, please see www.BismarckHockey.com.

See you at the rink
